Preface

The State Council of Educational Research and Training has developed the State Curriculum Framework - 2011 and Position Papers in tune with the National Curriculum Framework - 2005 and the Right to Education Act - 2009. Accordingly a new set of textbooks has been designed to be introduced in a phased manner. In the year 2012-13, the first of this series of textbooks has been developed for classes I, II, III, VI, and VII. Practising teachers have been involved in the production of the books along with the state level and national level experts.

Hitherto, English was introduced in Non-English Medium Schools in class III. The State Government introduced English for the first time in class I in 2011-12 in all Non-English Medium Schools. This year, i.e., 2012-13, English is being introduced in class II in all Non-English Medium Schools. With this, all the classes from I to X will have English as one of the subjects, irrespective of the medium of instruction. Therefore, in order to have parity among students of English and non-English medium a common English Textbook is introduced in all media from June - 2012. Moreover, since IT enabled learning, multilingualism, and language across the curriculum would greatly enhance the child's learning, it would not be a problem for the non-English medium child to learn English as effectively as the one in English medium does. This single textbook norm is already in practice in many states including Tamilnadu, Bihar, and Kerala.

The primary Textbooks titled '**MY ENGLISH WORLD**' are prepared based on holistic approach of language learning. The language skills namely listening, speaking, reading, and writing are integrated in the larger context of the themes suggested in NCF - 2005. The activities are designed as per children's knowledge and experiences which ensure their active participation in Teaching Learning Process.

The main aim of teaching English is to help learners evolve themselves as independent users of English. I hope this textbook will help teachers and students achieve this by making the teaching-learning process effective.

Inclusion of Gender Sensitivity and Child Sexual Abuse in School Text Books published by School Education Department with support of UNICEF is taken up to ensure protection of children through various interventions like personal safety rules, gender sensitivity, child sexual abuse, self esteem and life skills. In these areas safety mechanisms and laws related to child protection are taken care of. Hence, the teachers must know about these things and bring awareness among all the stakeholders.

I thank all the institutions and experts at the state and national level, the members of the textbook production committee, the staff members of SCERT and all others who have contributed directly or indirectly for the successful production of this textbook.

Any suggestions for the improvement of this book are welcome.

Once upon a time there was a little red hen. It had three friends – a pig, a duck and a cat. They all lived in the same house. But the little red hen was different from the friends.

The pig always got up late. But he wanted his meals to be kept ready on the table.

“Hey – you there” he called the hen.

“Get my meal ready.”

“Ok, dear! I will get your meals ready.” said the hen.

The duck never used to do any work. She always made the place dirty.

“My dear little hen! Will you clean up my place?” The duck requested the hen.

“Yes, my dear! I will do that for you,” said the hen.

The cat was always sleeping and never kept its bed tidy.

“Dear friend, will you make my bed tidy?” asked the cat.

“Why not? I’ll do it for you.”

After some days, the hen thought, “These fellows are being lazy. Will they ever do any work? I must do something.”

Unit -6

MARY AND THE THREE BEARS

Once upon a time, there was a little girl. Her name was Mary. She had curly hair. She was very naughty.

One day Mary ran into a forest. She was chasing butterflies. She saw a house and knocked at the door. There was no answer. She pushed the door open. There was no one inside.

“What a beautiful house!” exclaimed Mary. “Is anybody there?” said Mary clapping her hands. But there was no response. Mary saw three bowls on the table. There was payasam in those bowls. Mary was very hungry.

Unit-7

THE ANIMAL SCHOOL

It was a hot summer day. Many animals of the forest assembled in and near the pond. All of them were relaxing and talking. Just then, a crow came flying and sat on a branch. A rabbit saw it.

“Welcome Mr. Crow! Where did you go in the hot sun?” asked the rabbit.

“I went deep into the forest and I saw something very surprising,” said the crow.

“Surprising? What was that?” asked a duck.

“I saw an animal school deep in the forest,” said the crow.

A squirrel which was lying in her burrow, heard these words.

She said, “School for animals! What do they teach there?”

“Many things... running, jumping, flying, swimming and much more,” said the crow.

“We would like to join that school!” shouted all the animals.

Unit -8

BIRBAL OUTWITS THE CHEAT

Once upon a time, in the kingdom of Akbar, there was a man called Bajrang. Bajrang was very poor. He wanted to start a business and become rich. But all he had was a well in his backyard.

One day he went to his neighbour, Gopal and said, “Gopal! I want to sell my well. Would you like to buy it?”

“Of course, it will be useful for the vegetable garden in my backyard,” answered Gopal.

Bajrang sold the well and got quite a good sum. He started a business with the money. Within a year, he became very rich. But he became greedy too. He wanted to get his well back. And that too without paying anything. He went to Gopal and said, “Gopal! You have been using my water all these days. You have to pay me for that.”

“What? Are you crazy? I bought the well from you. So the water is mine,” said Gopal angrily.

“But I have sold you only the well, but not its water,” quarelled Bajrang.

About the Textbook

The textbook for class III has been developed keeping the following as the learning outcomes expected from the learners at the end of the academic year.

Academic Standards

At the end of the academic year the children are expected to achieve certain academic standards. The following are the six broad categories of the Academic Standards.

1. Listening and Responding
2. Reading Comprehension
3. Conventions of Writing
4. Vocabulary
5. Grammar
6. Creative Expression (Oral and Written Discourses)

The children should listen to, read and construct the following discourses both orally and in the written form.

- | | | |
|--|--|--|
| 1. Descriptions (objects, persons and places, experiences) | 2. Conversations with at least two exchanges related to their likes, dislikes, needs, etc. | 3. Stories / Narrative containing events and dialogues |
| 4. Rhymes / songs | 5. Recipe | 6. Slogans |
| 7. Posters | 8. Messages | 9. Choreography |

This textbook contains eight theme based units which are within the experiential orbit of the children. Each unit has a listening passage and two reading texts (A) and (B) along with textual exercises covering vocabulary, grammar, writing, project work etc.

Assessment

There are two types of assessments.

1. Formative assessment
2. Summative assessment.

Formative assessment

Formative assessment is done four times in an academic year. It is based on four tools given below.

1. Observation
2. Notebooks
3. Project work
4. Slip tests.

Formative Assessment is conducted for 50 marks, out of which observation, notebooks and project work are allotted 10 marks each and 20 marks for sliptest.

Teacher has to assess the performance of the learners during each term. This is not a single day activity; it is a cumulative account of what has happened on a day- to-day class room transaction.

Criteria for awarding marks under each tool:

Observation: The oral performance of children related to classroom activities which cover the academic standards i.e., listening and speaking, reading comprehension, oral discourses and their indicators should be considered while awarding marks.

Notebooks: The written performance of children related to conventions of writing, vocabulary, grammar, written discourses and the indicators written should be considered while awarding marks.

Projects: The oral and written performance of children which cover all academic standards should be considered while awarding marks in various stages ie., planning, execution, analysis and interpretation of data, report writing and presentation with feedback.

Slip Test: This test should be conducted without giving any prior notice to children. This test should cover any two / four targeted discourses in each formative assessment. This way all the targeted discourses should be covered. This practice will help children in attempting the written discourses in Summative Tests.

The following are the evidences for awarding marks:

- Teacher's unit cum period plans that reflect children's oral performance.
- Scripts of Slip Test.

Summative Assessment

In an academic year two summative assessments are to be conducted for 50 marks covering all the academic standards. Out of these, 10 marks are allotted for oral test and 40 marks are allotted for written test.
